

REMBRANDT™ POLYMER STAIN

FEATURES

Acrylic polymer stain

Stains intermix to create custom colors

Application method and technique versatility

REMBRANDT™ POLYMER STAIN is an acrylic urethane polymer stain. This interior/exterior polymer stain is low VOC, low odor, high durability and can be applied using a variety of methods and techniques. Rembrandt is formulated for excellent adhesion and uses high quality pigments for color and UV stability. Stain colors are semi-transparent and can be intermixed to create unlimited custom colors. These concentrated stain colors are mixed with a polymer base for application. Available in 18 colors.

BENEFITS

LOW VOC

LOW ODOR

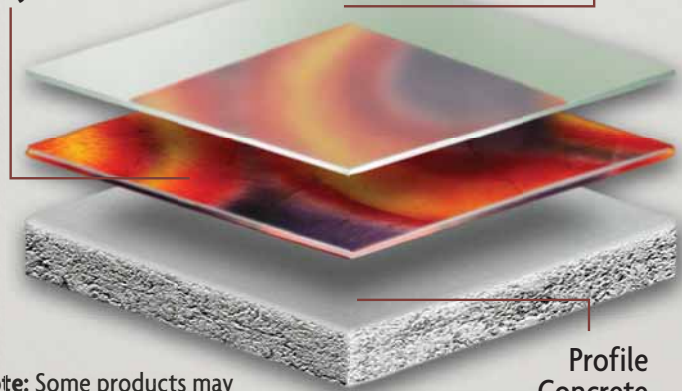

EXCELLENT ADHESION

SEMI-TRANSPARENT
